-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Evangelista (US 5,114,135).

Regarding claim 1, Evangelista discloses a device for depositing sheets for a printing machine, said device comprising at least one rotating drivable sheet transport element 30 to receive a leading edge of a sheet and deposit said sheet on a stack after said sheet has traveled a path of rotation, and comprising at least one drag element 116 for pulling a sheet that has been deposited on the stack toward a mechanical stop 32, said drag element coupled with the rotation of the sheet transport element and arranged in such a manner that said drag element can assume an inoperative position within said path of rotation by the rotating sheet transport element and that said drag element, in order to perform its dragging function, can be moved at least partially out of said path of rotation by the rotating sheet transport element, whereby said drag element does not disrupt the transport and deposition of the sheet because said drag element is mostly in its inoperative position within the circle of rotation of said sheet transport element.

Regarding claim 2, Evangelista discloses a device further including a pivoting element 114, wherein said drag element is linked by said pivoting element to said sheet transport element in such a manner that said drag element can be pivoted.

***Allowable Subject Matter***

Claims 3-13, 16 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments filed 17 April 2009 have been fully considered but they are not persuasive. Applicant argues that Evangelista does not show or teach the claimed invention. The Examiner respectfully disagrees. Evangelista discloses the invention claimed in claims 1 and 2, as explained above.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
